*"I am Karlsson & Ljungström. It's not just a brand name, it's also my family's legacy. It's my way of reasoning, and my way of life. It's our family's story, built on the knowledge of our ancestors. My family's history, my own memories & experiences is my heritage. I handle it with care and respect. It tells me where I come from, who I am and which values that molded me. I never forget where I come from, it's my guiding light and the root of my driving force. It in its purest form, me and my family's personal brand"*
